## RELIGIOUS SERVICES AND INSTRUCTION.

The students attend daily Morning and Evening Prayers in the College Chapel. On Wednesday and Saturday evenings the attendance is voluntary.

On Sunday, at 4 $\frac{1}{2}$  o'clock P. M., Evening Prayer is said in the Chapel, followed by a sermon; and all students are required to be present. The students attend the morning service at such church in the city as their parents or guardians designate.

The President, who is the Pastor of the College, discharges the duties of Chaplain, in which he is assisted by the other clerical members of the Faculty. Voluntary services are held at special times, in connection with the pastoral work in the College.

The Monday morning recitation is devoted to religious studies. These comprise, during the College course, the following subjects: History of the Holy Scriptures; critical readings of the New Testament in Greek; Natural Theology; the Evidences of Christianity; the Articles of the Christian Faith as contained in the Apostles' Creed; and the Book of Common Prayer.

---

## STUDENTS IN SPECIAL COURSES; AND THE DEGREE OF BACHELOR OF SCIENCE.

The Statutes provide that Students who do not propose to attend the whole Course of Instruction may be permitted, under the name of Students in Special Courses, to recite with the regular classes in such studies, always including Latin, as, upon examination, they shall be found qualified to pursue. They are examined for admission to the College on such parts of the regular requirements as belong to the departments in which they propose to enter (see page 19); are subject to the same rules and enjoy the same privileges as the regular students; and, on leaving with an honorable dismissal, are entitled to a certificate from the President, stating the time they have been members of the College, and the studies pursued during that time; or, provided they complete the course prescribed for that purpose, they may receive the degree of Bachelor of Science.

The degree of Bachelor of Science will be conferred upon those students who complete the regular course of study in all the departments except the Greek, and also sustain a special examination in one of the following courses, viz.: Differential and Integral Calculus; Practical Astronomy; Natural History, Mineralogy, and Geology.

Any student completing the course prescribed for the degree of Bachelor of Arts may receive the further degree of Bachelor of Science upon passing a special examination in the work of the Mathematical and Scientific departments and a further examination in one of the special courses above mentioned. Notice of intention to apply for this degree must be given in writing to the Secretary of the Faculty at the opening of the Christmas Term in Senior Year.

---

#### EXAMINATIONS FOR DEGREES AND FOR HONORS.

Examinations are held on the studies of Christmas Term at the discretion of the Faculty.

The Annual Examinations are held at the end of Trinity Term upon all the studies of the year, and are partly oral and partly written. The final Examinations of the Seniors for degrees begin on June 6, 1877; and the Junior, Sophomore, and Freshman Examinations begin on the 14th of June.

Examinations for Honors follow the Annual Examinations. Admission to these can only be gained by securing a high average mark at the daily recitations, and by passing the Annual Examinations with great credit. Success in the Examinations for Honors entitles a student to peculiar distinctions, both during and after his College course.

If a student succeeds in passing any Examination for Honors, his name is publicly announced as having passed *cum honore*. At the end of the College course, if a student has passed all the Examinations for Honors in one or more departments, it is publicly stated in conferring his degree, that he is graduated *cum honore*; and the names of the graduating class are printed in the next annual catalogue in the following manner: first, the names of those students who have been graduated *cum honore*, with a statement of the departments in which they have

obtained honor; then the names of the others in alphabetical order. A student who passes all the Examinations *cum honore* in all the departments, is graduated with the title of OPTIMUS.

The Secretary of the Faculty will furnish copies of the Examination papers to Teachers or others who may desire them.

## MATRICULATION.

Extracts from the College Statutes.

SEC. 1. Matriculation shall consist in signing, in the presence of the President, Faculty, and others, the following promise:

"I promise to observe the statutes, lawful usages, and customs of Trinity College; and to maintain and defend her rights, privileges, and immunities, at all times and in all places, according to my station and duties in the same."

SEC. 2. All non-matriculated persons are considered as on probation, and therefore not entitled to the full privilege of members of the Institution. Upon giving evidence of good character, they are admitted to matriculation at the close of the term in which they have entered. Unless they are allowed to matriculate as early as at the end of the second term of their course, they cease to be students of the College.

The regular matriculation will be held on the 20th of December, 1876.

## STANDING AND APPOINTMENTS.

The standing of a student is reckoned from the beginning of the Freshman year, and is determined by his diligence in study, his punctuality in attendance, and his general good conduct.

At the close of each term, a report of the scholarship, attendance, and conduct of each student is transmitted to his parent or guardian.

The aggregate standing attained by each member of a class is published at the beginning of the second term in Junior year and at the end of Senior year. When a student has entered College after the beginning of Freshman year and before the beginning of the second term in Junior year, his standing for the term or terms during which he was absent is considered to

have the same proportion to the maximum as that which he gains while in residence up to the time of the first publication of his aggregate standing, and, having been once published, is not recomputed. The back standing of a student entering later in the course is computed in the same manner, with a deduction of five per cent.

All the students in any class the aggregate of whose marks for the entire course is to the maximum attainable in the ratio of at least  $7\frac{3}{4}$  to 10, receive appointments for Commencement; and their names are printed as receiving such appointments on the Commencement programme.

The first seven appointments to *speak* at Commencement are given according to the aggregate of marks in the entire College course; but no student can receive any such appointment the aggregate of whose marks is not to the maximum attainable in the ratio of at least  $7\frac{3}{4}$  to 10. The Faculty may appoint three other speakers for Commencement; but no student can receive any such appointment unless his standing in Mental Philosophy, in Butler's Analogy, and in the Theme Writing of the course is at least  $7\frac{3}{4}$  on a scale of 10, and unless the mark of his Graduating Oration is at least 9 on a scale of 10.

No appointment is ordinarily assigned to any student who has entered College at or after the beginning of Senior year.

---

#### TERMS AND VACATIONS.

There are two terms in the Academic year. Christmas Term begins about the middle of September. Trinity Term begins early in January, and closes with Commencement. Commencement-Day in 1877 is the twenty-eighth day of June.

Christmas Vacation continues two or three weeks. Trinity Vacation continues eleven weeks from Commencement. There is also a recess in the Spring.

---

#### LIBRARY AND CABINET.

The Library contains about 18,000 volumes, exclusive of pamphlets, unbound volumes, and duplicates, and is increasing

from the income of the Bishop Burgess, Elton, Sheffield, Peters, and Athenæum Funds, amounting in all to \$31,800. The Library of the late President Jackson has been recently added to the College Library.

The Alumni Library Fund now amounts to about \$3,800, making the aggregate of the Library Funds, \$35,600.

The Reading-room of the College is under the charge of a committee of the students.

The students have free access daily to the Watkinson Library, a valuable collection of books for reference, containing about 30,000 volumes; and there are other excellent libraries in the city.

The College Cabinet possesses a valuable collection of Minerals, Fossils, and Shells.

The Gymnasium provides all the students with opportunities for physical exercise.

No estimate is given of the cost of text-books or of furniture; if they are sold when the student has no further need of them, the expense will be greatly diminished.

Through a bequest of \$15,000 made by Mrs. Sarah Gregor, and through scholarships mentioned hereafter, the College is enabled to remit the fee for tuition to all who are unable to pay it. Applications for the remission of tuition must be made to the Bursar at the beginning of each term.

Necessitous students are also provided to some extent with text-books, by means of a lending library established for that purpose, which is under the charge of the Professor of Latin.

Students admitted to advanced classes, except those from other Colleges, are required to pay \$12 for each term of their advancement. This charge is remitted to indigent students.

No student can receive his degree or an honorable dismissal until the Bursar certifies that all his College bills are paid, and that, so far as the Bursar knows, there are no lawful claims upon him for board or washing which he has failed to satisfy.

To prevent extravagant or improper expenditures by the students, the College Bursar is authorized by the Statutes to receive and pay out their funds according to the parents' or guardians' instructions.

## APPENDIX.

### NEW GROUNDS AND BUILDINGS.

---

THE old Campus was sold to the city of Hartford in February, 1872, to be used as a site for the State-House. The College reserved the right to occupy the buildings and grounds until April, 1877; but it was agreed that the north dormitory (Brownell Hall) might be taken down if it should be found necessary to do so in order to accommodate the work on the Capitol. The north section of this building was taken down in April, 1873, and the middle section in August, 1875. The south section is still standing, and, it is understood, will not be disturbed until the final demolition of the whole pile in the summer of 1877.

In February, 1873, a new site, containing about seventy-eight acres, was purchased. It is included within the city limits, and is situated upon the slope of Rocky Hill, about one mile south of the old site and one-quarter of a mile west of the Retreat. The land rises from the east by a gentle ascent until it reaches an elevation of 156 feet above the Connecticut river, when it terminates abruptly in a cliff of trap rock looking toward the west and extending north and south about half a mile. The view which it commands on the east is very beautiful, taking in the city of Hartford and a wide range in the valley of the Connecticut river; and on the west it extends from Mount Tom and Mount Holyoke to the Meriden hills, a distance of not less than sixty miles. Upon this cliff it is designed to construct an esplanade with a parapet, furnishing a promenade of about 1200 feet in length, upon which the western gateway of the College will open.

In the summer of 1873, Mr. W. Burges of London was employed to furnish plans for the new buildings; and in the autumn of that year, Mr. F. H. Kimball, a rising architect, was sent out to prepare, under Mr. Burges's direction, the working drawings required for the execution of these plans.

Upon his return in October, 1874, these drawings were submitted to the Trustees, and at their meeting on the 7th of November, called for the election of a President, they were entrusted to him as chairman of the Building Committee, with instructions to report upon them on the 5th of December. At that time the plans were re-committed for the purpose of introducing various alterations which it seemed desirable to make. The winter of

1874-75 having been spent in this work, the plans thus amended were adopted by the Board in April, 1875, and \$300,000 was voted toward their execution. About the same time, Mr. Frederick Law Olmsted was employed to prepare a scheme for laying out the grounds, and a careful survey of the property was made and the buildings were located by Mr. Radford, the engineer of the New York Central Park. At the annual meeting of the Trustees in June, the final building committee was appointed, consisting of the President, Mr. George Beach, and Mr. Thomas Belknap; and on the afternoon of Commencement-Day, July 1, 1875, ground was broken, with appropriate ceremonies and amid much enthusiasm.

The following was the order of the exercises:

The Company assembled upon the new site, at the upper part of Vernon street, at 5½ o'clock P. M., where a procession was formed in the following order: The Master of Ceremonies; the Rt. Rev. the Chancellor and the President of the College; Prof. Jem and the Head Janitor carrying the spades; the Architect and the Engineer; the Faculty; the Visitors; the Trustees; the Students; the Alumni; the Invited Guests.

The Procession, preceded by the Band, moved up the hill to the corner of Vernon street and Summit avenue, and then turning south proceeded to the ground marked out for the Northern Dormitory. On reaching the ground it divided in such a way as to be drawn completely around the limits staked out, the Band taking its place at the flag-staff in the centre.

When all were in their places, the Chancellor said:

V. The Lord be with you.

R. And with thy spirit.

THE LORD'S PRAYER.

THE COLLECT.

Direct us, O Lord, in all our doings, with Thy most gracious favour, and further us with Thy continual help; that in all our works begun, continued, and ended in Thee, we may glorify Thy holy Name, and finally, by Thy mercy, obtain everlasting life; through Jesus Christ our Lord. *Amen.*

The President then took one of the spades, and after giving a few words of explanation in regard to the affairs of the College, the number and position of the buildings, and the lay-out of the grounds, handed it to the Rt. Rev. the Chancellor, with a request to begin the work of breaking ground.

The Chancellor taking the spade said:

"In the name of the Father, and of the Son, and of the Holy Ghost, the Holy and Undivided Trinity, I begin this work."

After removing one sod, he gave the spade back to the President, who in turn removed one sod, and then handed the spade to Prof. Jem and to the Head Janitor; after which the spades were passed down the lines in both directions, each person removing one sod, the Band playing in the meantime.

When this was finished, the *Doxology* was sung.

Then the President said:

V. Except the Lord build the house, their labour is but lost that build it.

R. Except the Lord keep the city, the watchman waketh but in vain.

V. The Lord our God be with us;

R. As He was with our fathers.

#### THE PRAYER OF DEDICATION.

O holy, blessed, and adorable Trinity, Who in all parts of Thy dominion art always present, yet dost hallow the places consecrated to Thy worship and service; We dedicate this site to the special honour and glory of Thy Name. And, as Thou art the Founder of the College here to be builded, be Thou also its Protector. Let Thy blessing rest always upon those who shall gather here to learn or to teach. Here let no malice of Thine enemy ever prevail, and no contentious thoughts divide those whom one fold contains and one

Shepherd rules; but be Thou ever worshipped and feared in this place in faith and charity, in pureness of heart and devotion of spirit. And grant that all who here seek heavenly or earthly knowledge may in Thy light see light; through Thy mercies in Christ Jesus our Saviour. *Amen*

O eternal God, Who has moved us Thy servants here to begin a building for the honor of Thy Name, for the advancement of godly and sound learning, and for the everlasting salvation of human souls; Accept the offering which here we make to Thee of Thine own, and bless us Thy servants in this our pious undertaking. Direct their counsels to whom this work is to be entrusted, having it in Thy good keeping always, that so our good purpose may be brought the soonest to the best end. Direct the labors of the architect, of the master-builders, and of the workmen. Keep them safe from every evil accident, and secure from all earthly and spiritual dangers. Put it into the hearts of Thy faithful people to give benefactions for the advancement of this work, and, if it be Thy will, bring the whole, with no long delay, to its full completion. Send Thy blessing upon all like Institutions of learning, and grant that in them all Thy Name may be glorified and Thy holy will may be accomplished; through Jesus Christ our Lord, to Whom, with Thee and the Holy Ghost, be glory for ever and ever. *Amen*.

The 138th hymn—"Holy, holy, holy Lord God Almighty"—was then sung to the tune of *Nicaea*.

The *Benediction* was then pronounced by the Chancellor.

This done, the College Flag was raised and saluted by the Students, the Band playing "The Star-Spangled Banner," followed by "God Save the Queen," and other pieces of music.

The Chancellor, the President, and Prof. Jem were then chaired by the students; after which the Procession, having been re-formed, marched around the limits of the great quadrangle, and returned to the point on Vernon street from which it started.

In the course of the month of July the various arrangements for building were completed. Excavation was begun on Monday, July 26, and the work of construction was actively prosecuted until Christmas. In the spring of 1876, building was re-commenced, and the work of roofing and slating will probably be completed in the course of the present autumn. The interior will be finished during the winter and spring, and it is believed that everything will be in readiness for the College to remove to its new quarters immediately after the Commencement-Day of 1877.

The engraving of the plan of the buildings as finally arranged by Mr. Burges, was inserted on the last page of the Catalogue of 1875-76. An engraving of the plan as amended and now in process of construction will be found on the next page. The principal change made in the first plan has been to throw the two central quadrangles together, and substitute for them one large quadrangle, reducing the number from four to three, and at the same time removing the Chapel and Dining-Hall from the centre of the pile to the north side of the great quadrangle. This is a return to the original idea of the architect. The buildings which have been begun form the western side of the central quadrangle. The Library and the Museum are to be placed upon the south side of the great quadrangle. The northern quadrangle is intended for the accommodation of the students; at its north-western angle provision is made for an Astronomical Observatory. The southern quadrangle is designed for the residences of the President and the Professors. It is intended to erect no more of the buildings at present than are absolutely necessary to carry on the work of the College. The large and more expensive public buildings, it is hoped, will be erected by private benefactors.
